KELANIYA-SRI LANKA

OBJECTIVE

Seeking a challenging position in the field of Information Technology to leverage my skills in web development, programming, and analytical problem-solving. Eager to contribute to innovative projects that combine software engineering and data-driven solutions, with a focus on developing efficient web applications and solving real-world problems.

EDUCATION

- **Sri Lanka Institute of Information Technology (SLIIT), Malabe** 2023 – Expected 2027
BSc (Hons) Information Technology (Undergraduate) Sri Lanka
 - Currently in 3rd Year
- **Sri Dharmaloka College, Kelaniya** Sri Lanka
G.C.E. Advanced Level (2022) & G.C.E. Ordinary Level (2019)
 - A/L Stream: Physical Science
 - Subjects: Combined Mathematics (S), ICT (C), Physics (S)
 - O/L Results: 6 A's and 3 B's

PROJECTS

- **Animal Clinic Management System – MERN Stack (Group Project)** July 2025 – November 2025
Tools: MongoDB, Express.js, React.js, Node.js 
 - Developed the Payment and Billing module for managing financial transactions
 - Implemented invoice generation, payment validation, and transaction tracking
 - Integrated frontend and backend using RESTful APIs
 - Ensured secure data storage and efficient database operations using MongoDB
- **Online Voting System – Web Application** June 2024
Tools: HTML, CSS, JavaScript, PHP, MySQL 
 - Developed a secure online voting platform with user registration and login authentication
 - Implemented vote casting functionality with validation to prevent duplicate voting
 - Designed backend logic and integrated database for real-time vote counting
 - Ensured data integrity and secure handling of user information
- **Examination Management System – MVC Based Web Application** January 2025
Tools: Java, MySQL 
 - Developed a web-based system using MVC architecture to manage exams and student records
 - Implemented full CRUD operations for efficient data management
 - Applied validation techniques to ensure accurate data handling
 - Maintained clear separation between Model, View, and Controller for scalability
- **WellnessMate – Android Wellness Application** 2025
Tools: Kotlin, Android Studio 
 - Developed a mobile application to support physical and mental wellness tracking
 - Implemented features such as habit tracking, hydration reminders, and mood journaling
 - Designed intuitive UI using Fragments and Bottom Navigation
 - Enhanced user experience through efficient module navigation and performance optimization

SKILLS

- **Programming Languages:** Java, JavaScript, TypeScript, PHP, Python, Kotlin
- **Web Technologies:** HTML, CSS, React.js, Node.js, Express.js, Spring Boot
- **Mobile Development:** Android Development (Kotlin), Android Studio
- **Database Technologies:** MySQL, MongoDB (NoSQL)
- **Tools:** Git, GitHub, VS Code, Postman, NPM, MySQL Workbench, XAMPP, Eclipse, RStudio
- **Software & Technologies:** REST APIs, MVC Architecture, Client-Server Architecture, Full-Stack Development
- **Concepts:** Object-Oriented Programming (OOP), CRUD Operations, Data Validation, API Integration
